

MACHINERY BREAKDOWN INSURANCE

This policy is designed to indemnify the insured against damage to the machinery (already fixed and in use) caused by breakdown, principally from the sources within the machinery. It covers unforeseen and sudden physical loss of or damage to the insured items, necessitating their repair or replacement.

Benefits

Reimbursement of the sum insured for the machinery and insured parts

- Covers unforeseen or sudden physical damage of the insured machinery due to breakdown
- Provides cover for machinery at various locations
- Policy can be taken by the owner or by the financiers of the machinery

Features

- Loss or damage caused by defects in casting and material, faulty design, faults at the workshop or in erection, bad workmanship, lack of skill, carelessness, shortage of water in the boiler, physical explosion, tearing apart from centrifugal force, short circuit, storm, or any other cause that is not specifically excluded in the Machinery Insurance policy.
