

# GOOD-IN-TRANSIT INSURANCE

The policy covers the goods of the insured against accidental damage or theft while the goods are in transit or being loaded or unloaded from any road vehicle or train or while temporarily housed in the ordinary course of transit.

## Benefits

- Covers the goods of the insured against accidental damage
- Theft while the goods are in transit loading and unloading from any road vehicle or train
- Temporarily housed in the ordinary course of transit

## Requirements

- Description of Goods
- Mode of conveyances.
- Mode of packaging.
- Origin and final destination of the goods.
- Basis of valuation e.g. cost and freight

**Note:** Underwriting consideration will depend on the nature of consignments. In Arriving at the Sum Insured for Estimated Annual Carriage the average total value of goods carried per week is multiplied by 52.
